Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can give away his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern, its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

Collector Samuel J. Roberts has appointed Deputy Collector Chalmers T. West of this city to the position of Storekeeper-Gauger.

Mr. West has accepted the transfer, the change to occur about the first of May.

"WE TOLD YOU SO!"

Office Frank Purnell Wins His Case Against the City.

Now will you 'n be good.

It's a long dog that has no tail—or words to that effect.

In January, 1890, acting under authority of the city charter, Chief of Police D. P. Orr, by and with the advice of Mayor William H. Cox, appointed Mr. Frank Purnell as a Special Policeman.

Mr. Purnell at once entered upon his duties, performing them acceptably to his superiors.

At the end of his first month's service his bill for \$50, properly paid, was presented to the City Council—which "not down" on it—Mr. Charles B. Pearce being the only member of the Board voting to pay it.

This sort of business continued for several months, when Mr. Purnell sought relief from the Mayor Circuit Court, and Judge Harbison promptly gave him judgment against the city.

Thereupon the rotten-log lawyers of the Board of Council, who "knew some things themselves," carried the case to the Court of Appeals.

Nothing daunted, Mr. Purnell continued to serve the city until July 20th, 1897, each month presenting his bill to Council for \$50, each month Mr. Pearce voting to pay it, and each month the remaining eleven wise men voting against doing so.

And all this while THE LEDGER took the ground that Mayor Cox and Chief Orr were right—that any one who understood plain English could not help saying so.

And all this while the case remained in the keeping of the Court of Appeals, until on Tuesday a decision was handed down.

The Mason Circuit Court is affirmed; the City of Maysville will recover from the City of Louisville something over \$800 for salary, with a good slice for interest, and the Lord and the lawyers only know how much in the shape of costs.

Judge Thomas R. Philmer was Mr. Purnell's Attorney and Hon. E. L. Worthington represented the city.

Friday's Cash Sale

HOSIERY DAY.

Friday is our Hosiery Day. It is Hosiery Day in every home. Others take an inventory, dark beds and toes and discard many stockings with a sigh. Hosiery bought at our Friday sale will lighten this burden, for then you can purchase two pairs at about the price of one. The more you buy the more you save. Such quantities and such prices are not often linked. A season's supply would be a prudent policy.

WOMEN'S HOSIERY.

WOMEN'S HOSIERY—No. 1. Guaranteed absolutely fast black. Extra fine weave and seamless, our regular 12c. stocking, Friday 7c. pair. No. 2—Same fabric and style as above but slightly heavier in weight and closer in weave. Our regular 15c. value 12c. pair. No. 3—Soft, elastic and very closely woven, 10c. a pair. Would be fairly priced at a half more. No. 4—Imported, seasonable weight, ribbed or plain, high spliced heel and toe. Will wear like a shoe. If you've been buying hosiery from us you'll recognize these as our regular 35c. line. No. 5—Lisle thread, plain or lace striped, beautiful black, double sole, heel and toe. 25c. a pair. Supply of the above last two lots limited, and that all our customers have an equal chance we cannot sell more than four pairs to one.

CHILDREN'S HOSIERY.

Clothing children feet is a question. Cheap stockings look cheap, fine stockings cost a good deal. Here's relief—children's fast black and tan hosiery, seamless, shaped exactly like the foot, no heel pockets or toe bags, the long legs snug as elastic built with double knees. "Outgrow them?" Yes. "Wear them out?" Well, hardly. Two grades 9c. 15c. You cannot buy better in Cincinnati or in any market such values as we offer Friday. It is the best of our best efforts to introduce our Hosiery stock to this community, to give the true bargains they will long remember.

"The best way to get rid of a bad law is to enforce it."—General Grant.

It was different here!

When the Fleming County Committee—acting as an "Advisory Board"—for Congressman PUGH—met to vote on the respective applicants for the Postmaster-ship at Flemingsburg, this is the sensible and honorable way in which it acted before the voting began:

"A motion was then made to adopt the rules suggested by Honorable S. J. PUGH, with the exception that all members of the Committee be allowed to vote, WHETHER RELATED TO ANYONE OF THE CANDIDATES OR NOT."

"On motion, the majority rule on the selection of a candidate was adopted."

Mr. PUGH was not present at the above meeting; and that may account for the sensible change made in his "rules."

He was present at the meeting of the Mason County Committee, and his insistence on disfranchising every Committeeman who had a relative among the applicants for the Maysville Post-office was something beautiful to behold, even though the related Committeemen openly avowed their purpose not to vote for their relatives!

Under Mr. PUGH's rule Messrs. W. W. GALT and W. L. GALT, two Committeemen who represented the largest and most influential Republican families and the strongest Republican Precincts in the county, and Judge M. C. HITCHINS, a Veteran soldier of this city, were denied the right to vote.

And then the Fleming County Committee adhered to the good old-fashioned plan of majority rule, while the scheme engineered in this county by Mr. PUGH established the minority rule, for the issue was decided by a vote of 13 Committeemen out of 27.

The whole proceeding that was so outrageously one-sided here it is hardly worth while to refer to the additional infamy that one Committeeman who had a kinsman in the interest was allowed to vote upon the mere statement of that kinsman that he relinquished all claims for consideration, but who has since accepted the offered place.

This silver combine is not quoting "Dan's and Brantree's" to the farmers as much just now as it was in 1896. Then its representatives spoke in the highest terms of these publications and quoted them constantly to show the fall in prices. Now they carefully avoid them, for their statistics show a remarkable rise in the value of all farm products since the date of the adoption of the Chicago platform and the equally remarkable fall in the price of silver meantime. Tables just published by Brantree's comparing prices of farm products on March 1st, 1898, with those of July 1st, 1896, show that in practically every article there has been an advance of from 15 to 50 per cent, while silver has fallen nearly as rapidly

as the other articles have advanced.

Silver was then within a fraction of 70 cents an ounce at the date of the adoption of the Chicago platform and is now but a fraction above 54 cents per ounce. Yet farm products have risen meantime, and since practically all production in this line is included in the advance, it cannot be claimed that the general rise is due to "shortage abroad."

SOME curious statistician has recently investigated in detail the course of silver and farm products in the 21 months since the adoption of the silver proposition by the Democratic Convention at Chicago in 1896, and finds that in practically every case farm products have advanced at about as rapid a rate as silver has fallen meantime. The following table shows that while silver fell from 93.2 cents per ounce on March 10th, 1896, to 54.3 cents on March 10th, 1898, wheat advanced from 63.5 cents to \$1.02; corn advanced from 75 cents to 81 cents; and other articles of farm production in about the same proportion:
